

InCharger™

INDUSTRIAL & WORKBOAT
BATTERY CHARGER

HI-TECH!

PROGRAMMABLE!

BRIGHT DISPLAY!

The InCharger is a rugged, state-of-the-art industrial and workboat battery charger designed with an ultimate “man-machine” interface to custom fit your application.

FEATURES

- Rugged anodized aluminum case
- Handles both 12 and 24 VDC outputs
- Available in 6, 10 and 20 AMP sizes
- Configurable for Gel, Flooded Lead Acid, AGM or NiCad batteries
- Simple user configuration allows for one model charger to be customized to meet the needs of an application
- Utilizes a Smart Memory Button for storage of charger parameters
- Specific battery type charging profiles to prevent battery damage
- Computer controlled charging monitors the battery during the charge cycle for optimum charging
- Easy change connectors for ease of wiring
- **Made in the USA**

SPECIFICATIONS

- Operating Temperature: -40°C to + 65°C
- Output: 12VDC/24VDC User Selectable
- Input: 120VAC/240 VAC Auto Select
- UL Certified, NFPA 99 & 110 Compatible

PRODUCT NUMBER	DESCRIPTION
93-INCHGR06-A	6 Amp Output
93-INCHGR10-A	10 Amp Output
93-INCHGR20-A	20 Amp Output

Options:

93-RMDISP01-A

Full Function Remote

93-RMTEMP01-A

Battery Temperature Sensor
